

AGENDA ITEM COVER SHEET

Trustee Meeting Date:	Agenda Item Type:
September 22, 2026	Requisition Item
Submitted By:	
Rick L. Prinz, Fire Chief	

Motion:
Mobilcomm, Inc. - \$13,736.00 - Purchase and install two wireless headsets (CIP 2162)

Background:
Hearing protection is required as a part of the Ohio Administrative Code sections OAC 4123:1-21-04(5)(C) and 4123:1-3-03(I) require hearing protection, particularly in the cab of the vehicle. Currently, wired systems are installed in older vehicles that are requiring much maintenance to keep in service. The purpose of this CIP is to replace the headsets in vehicles 1018 and 820. The budgeted amount for this CIP is \$18,000 Attached, you will find three quotes for CIP #2162: Wireless headsets. The quote from Setcom is for equipment only. Mobilcomm's submission includes equipment and installation. Mobilcomm would install the equipment from Setcom should we decide to purchase the equipment from a different vendor. Additionally, we contacted Tri-State Public Safety, who advised that the installation is beyond their capabilities for installation. It is my recommendation to approve Mobilcomm to provide the equipment and complete the installation. The total cost of this request is \$13,736.

Finance	Budgeted Item:	Yes; CIP

Itemized pricing and full Scope of Work are detailed on the following pages.

50% payable upon receipt of Order | 30% payable upon receipt of Equipment | 20% payable upon Completion
Payment by credit card on orders over \$5,000 will have a 3% surcharge. This proposal is valid for 30 days.

Customer Responsibilities:

Costs associated with any of the following are excluded unless specifically listed in the proposal:

Cost of any required permits for zoning and/or building will be the owner(s) responsibility

Access to building is available to Mobilcomm personnel

If building or tower space is leased, permission to use the property has been obtained

Leased tower space may require load analysis and additional fees imposed by the tower owner

Electric service is available where needed or will be provided by the owner(s)

IP network requirements, if needed, are understood and agreed to by the owner's IT personnel

HEPA tents, if required, must be supplied by the owner(s)

Rental of lift platforms, if required, is not included

Mobilcomm must be informed of any known or potential hazards on the property; if hazards are present, cost for remediation will be the owner(s) responsibility.

If asbestos is present, cost for remediation will be the owner(s) responsibility

Notify Mobilcomm prior to the proposal if plenum rated cable is required for any portion of the project

Notify Mobilcomm prior to the proposal if site safety training is required and length of time to complete

Assumptions:

Floor space or wall space is available

Antenna & cable routing paths are available

Building ground system connection is available

A backup power plan, if required, is understood and agreed to by the owner(s)

The proposed radio coverage area is understood and agreed to by the owner(s)

An FCC license can be obtained for the required frequency(s)

Subscriber radio programming plan is understood and agreed to by the owner(s)

A site inspection and installation plan has been performed and approved by the owner(s)

All work will be performed during normal business hours

Proposal:

All work is proposed during normal business hours, 8:00am through 4:00pm Monday through Friday

After hours or weekend work is not included; if required, additional labor will be added to the final invoice

Prevailing wage is not included; if required, Mobilcomm must be notified before accepting this proposal

Title will pass upon shipment, risk of loss will pass upon delivery to purchaser's facility

Additional charges will apply for any material or labor not included in this document

Quotations are exclusive of all installation, programming charges and applicable taxes unless expressly stated in the

DESCRIPTION

We use cookies to improve your experience on our site. By using our site, you consent to cookies.

Give command, crew and dispatch instant communication with each other when crucial seconds count. The FHW505 uses the latest DECT7 wireless technology to connect your crew in the apparatus and on scene. New Stereo Listen-Through microphones provide situational awareness and face-to-face communication without removing your hearing protection. Directly connect any portable radio with a PR interface cable (sold separately). Improved voice clarity, advanced hearing protection and a “set-and-forget” automatic noise gate make the FHW505 an indispensable communication and safety tool.
